## About Me

Full Stack Developer with **1.5+ years of experience**, specializing in **frontend development**. Proficient in **React.js, Node.js, Express.js, and MongoDB**, with expertise in building **scalable, high-performance web applications**. Skilled in UI/UX design, state management, and API integrations. Focused on delivering seamless, user-friendly experiences with modern frameworks and performance optimization.

## EXPERIENCE

### Software Developer | Sep 2023- Present

Persistent Systems, Pune

- Led the end-to-end design process, from conceptual wireframes to polished, high-fidelity prototypes, ensuring an intuitive and user-focused experience.
- Developed dynamic, responsive user interfaces by building and maintaining modular React.js components and pages, optimizing for scalability and performance.
- Architected efficient backend solutions focusing on seamless workflows and streamlined data management.
- Utilized advanced developer tools to debug, optimize, and enhance code performance, ensuring stability and reliability in production environments.
- Efficiently managed application state by implementing robust data stores using Context API and Redux Toolkit for scalable and maintainable state management.
- Designed and programmed RESTful APIs using Express.js and Node.js, for smooth and secure client-server communication.
- Enhanced React components' visual appeal and usability by leveraging Tailwind CSS for clean, modern styling.
- Integrated diverse web development techniques and best practices to build comprehensive, high-performing web applications that meet user needs.

## SKILLS

**Languages:** HTML/CSS, Javascript / Typescript

**Databases:** MongoDB, SQL(Basic Queries)

**Libraries:** TailwindCSS, Bootstrap, GSAP

**Frameworks:** ReactJS, React Native, NodeJS, ExpressJS, Redux/ReduxToolkit, SCSS

**Designing:** Figma, Wireframe, Mockup, Prototype, User Interface Design

**Tools:** VSCode, Git, GitHub, Postman.

**Other:** Troubleshooting, RestfullAPIs

## EDUCATION

**Bachelor of Technology - Computer Science |**

Jul 2019 - Jun 2023

Lakshmi Narain College of Technology & Science, Bhopal (**CGPA: 8.87/10**)

**Higher Secondary Certification (HSC) - Mathematics**

| Sep 2018 - Jun 2019

K.K. Convent Higher Secondary School, Khargone (**Scored 68%**)

## PROJECTS

### Vehicle Rental Service | Nov 2023 - Dec 2024

- Developed an online vehicle booking platform with real-time GPS tracking, rental history, user profiles, and secure payments. Implemented vehicle selection, booking confirmation, and renter-owner interactions. Integrated ratings, reviews, and performance metrics for informed decision-making. Ensured seamless transactions with multiple payment options and robust security protocols for a trusted rental experience.
- Responsibility:** Designed and developed intuitive UI components for vehicle selection, booking, and user profiles. Rental history, and review systems. Ensured seamless navigation, and responsive design. Optimized performance for a smooth and interactive user experience.
- Frontend:** React.js for building a responsive and interactive user interface.
- Backend:** Node.js and Express.js for handling server-side logic and API requests.
- Database:** MongoDB

### MOVIE DISCOVERING WEBAPP | June 2024 | [Link](#)

Self-Project

- Developed efficient backend routes with Express.js and implemented business logic using Node.js, enhancing application functionality.
- Demonstrated expertise in server-side development by seamlessly integrating external data from the TMDB API to enhance user experience.
- Leveraged performance-boosting libraries such as **LazyLoading**, **InfiniteScrolling**, **ReactPlayer**, and **ReactProgressBar**, **improving application efficiency by over 20%**.
- Optimized the organization and structure of UI components, contributing to high-quality, intuitive, and efficient user experiences.
